Engineering Corp to look for int'l contracts

Signs agreement with Malaysian company

The Sri Lanka State Engineering Corporation (SEC) has signed an agreement with a Malaysian Company called Majuliya YWC Builders for a joint venture to undertake international building contracts.

Under this agreement the Malaysian company will assist the SEC to access large scale construction undertakings by providing funding and helping in the development of infrastructure facilities.

Construction and Engineering Services Minister Dr. Rajitha Senaratne who witnessed the signing of the agreement said this was a historic agreement which would facilitate the *Mahinda Chinthana* vision of introducing construction sector services to the international market. To page 12

Hereafter, the SEC would not have problems in providing bonds for international contracts as the Malaysian Company would provide the financing for such bonds an Information Department release said.

The agreement was signed by Acting Chairman Thinsula Liyanage on behalf of the SEC and Managing Director Iyup Lung Henge on behalf of the Malaysian Company. Malaysian High Commissioner Rose Ismail and other Ministry officials were also present.
